Bagbazar , Kathmandu

SUMMARY

I am a highly motivated computer science professional with knowledge of Angular and .NET. Having a strong interest in web development, I will always strive to learn new and evolving technologies. As a team player, I value collaborative effort for organizational goal achievement.

WORK EXPERIENCE

IMARK Pvt Ltd. (2024 – Present)
IMARK is a software development company in the fintech and healthcare domains. The company maintains a software portfolio and services banks, hospitals, and retailers. I have worked on several projects at IMARK.

IPOS and Bank Portal:
- Manages POS devices, keeps a record of deployment, configures, reconfigures, supports, and maintains, and the Bank portal communicates with the Bank with IMARK for different actions related to POS devices.
- Code Refactor and Query Optimization on the existing system.

ICMS (IMARK Card Management System):
- Allows banks to issue cards to Cooperatives, which follow different stages, including BTRT generation and receiving details from Switch (NEPS).
- Updated dotnet version 5 to 6, then 6 to 8.
- Code Refactor and Query Optimization on the existing system.

Fewa Card Portal:
- Manage credit and debit cards issued to customers by the bank.
- Clean architecture, restful APIs, and other technologies.
- Involved fully in the project from scratch.

Fewa MMS(Merchant Management System):
- Support real-time payment processing through QR scanning.
- Manage merchant onboarding with auto-generated QR codes for each merchant.
- Implement APIs for QR generation, scanning, and transaction validation.

Fewa Merchant Portal:
- Develop an interactive dashboard displaying balance, settlements, and transaction insights.
- Ensure smooth transaction tracking with filters and search functionalities.
- Ensure real-time updates on financial transactions and balances.
- Generate detailed reports for payments, transactions, and settlements.
- Integrate with third-party payment gateways like Visa, Mastercard, Fonepay, and Nepalypage.

SKILLS

- Angular
- .NET
- Clean Architecture
- Git
- Identity Server for authentication and authorization
- Role-based and permission-based authorization
- API versioning
- Digital signature and certificates

EDUCATION

2025	Master's Degree (MSc CSIT) at Central Department of Computer Science and Information Technology, TU
2023	Bachelor's Degree (BSc CSIT) at PadmaKanya Multiple Campus, TU
2018	Class 12th (Science) NEB
2016	Class 10th GOV

DECLARATION

I solemnly declare that all the above information is correct to the best of my knowledge and belief.
